MEEHANUS THE ONLY PAVORITE TO WIN AT BENNINGS.

PUBLIC HIT THE BOOKMAKERS HARD ON SECOND CHOICES-MEETING MAY BE

EXTENDED THREE DAYS.

Washington, Nov. 16 .- Mechanus, of Park Row fame, was the only favorite to win at Bennings today, yet the bookmakers scored some heavy losses, as four heavily played second choices completed the out, list of winners. Some of the pencillers will be missing from their accustomed places to-morrow; in fact, one dropped out after the second race to-day, lack of funds compelling him to retire. Few of the public are winning but Lucica Center 1.504. public are winning, but Lucien O. Appieby, "Tom" Healey, W. Karrick and those who share their secrets are piling up the shekels for the winter.

unningham's poor work yesterday was as unsatisfactory to his employer, J. J. McCafferty, as was to the general public, and this morning the ex-outlaw" received his release. Dean, who has intervals, had the mount on Peat in the closing event, and his exhibition was no improvement on Cunningham's, for he finished third in a race he should have won easily. The field numbered only yet in making the circuit he was in and out of at least half a dozen pockets. The defeat was costly to the stable, as its commission was an extensive one. McCafferty's string is beyond ail win races he must put up capable riders. Bad ckeys may bring liberal prices, but of what ad-

Maker and L'Alouette were left at the post in the third race. It looked as if the rider was more at fault than the filly, and the stewards called on him for an explanation. His story was a contradictory nder of the week. O'Leary and Clawson were SD each for disobedience.
Quinton has sold his recent purchase, Ellerto E& Heffner, for \$1.200, no weather and the support warrants it, the us here will be extended three days, bringing indup on November 30, the last day on which its legalized by The Jockey Club. The sumfoliable.

ARRANGEMENTS COMPLETED FOR THE CANADA'S CUP RACES.

Terento, Nov. 18 (Special) .- All the terms in regard to the international races for the Canada's and return, twenty miles; the third will be a trisame as the second, and the fifth will be another twenty-one-mile triangle.

The agreement to have the tacers built in the thirty-five-foot class has given the best average of satisfaction, though many think the forty-two-foot Fife-designed Canada, the last winner and present holder of the cup, ought to be tried again. Others say it diminishes the importance of the trophy to allow competitors of less than the Canada's size, but there is no doubt that a larger number of racers, both American and Canadana in the thirty-five-foot class will be produced for the trial races. The Chicago Committee that filed the challenge came here in the private car of the president of the Chicago and Southeastern Rallway. At the meeting of the Royal Canadian Yacht Club on Monday night the following seven yachtsmen were elected by general club vote to be the Salling Committee to have charge of the international races: C. E. Archivald, F. Ray, W. Morse, J. S. McMurray, W. Herbert Parsons, J. C. Reed and F. A. Turner, This committee has appointed G. Temple McMurrich as honorary measurer.

The Wanamaster Store Another Look at Toyland

WE like to do things thoroughly, and we think that you must admit that we have done this toy business thoroughly. This is the largest, the most varied the most complete, the fairest priced and the freshest collection of toys in New York. Five superlatives in a row; -but the facts justify them.

When one speaks of toys, one naturally thinks of dolls first. Here is the whole race of dolls; American, European, African and Mongolian. Dolls of all sorts, kinds, characters and conditions. Dolls for one cent, and dolls for three hundred dollars. Boy dolls, girl dolls, baby dolls; dolls that talk and dolls that walk, and dolls that cry rather more naturally than life; doll policemen, doll soldiers, and just plain dolls. The prices on many of these make a new record for littleness.

Mechanical toys, -hundreds and hundreds of them. Some simple, some complex, some little short of marvellous. Many that you have never seen and many of the old favorites in new guise. The steam engine is very much present and connected up to some novel toy labors.

Games; -- more than you can count. Animals; -- more than Adam ever counted. And books; -but that's another story.

Toyland is a place worth visiting, but no adult can describe it. None but a child could really do justice to it. Let yours try.

This was objected to by the members of the League, and when Mr. Vorhaus tried to speak the meeting was immediately adjourned. The Wilkesbarre delegates protested, but without avail. Mr. Stegmaler, of Wilkesbarre, served notice on President Powers protesting against the meeting, claiming it had been illerally called since his club had not been properly notified. The case may come before the annual meeting of the League, which occurs on the first Vednesday of December. No new teams were admitted to the League yesterday. Applications from Hamilton, Utica, Troy and Albany were filed. It is certain that some of these cities will be admitted during the winter. There is some talk of Buffalo withdrawing from the Eastern League, but the subject was not considered at yesterday's session.

Mr. Poggenburg has been playing in exceptionally fine form in this match, while Mr. Stark played indifferently on the first night. He railled some what in the second game, but it was not until last night that he displayed his well-known ability. hight that he displayed his well-known ability. The rame was close until near the end, when Mr. Stark, by some elever plays, drew away from his adversary, and finally won rather easily. His average was within a fraction of the best that he ever made in a public game, and Mr. Poggenburg's was also good. Both players executed many brilliant shots, and were loudly applicated by the spectators.

The score of last night's game was as follows. Stark, 30; average, 10 %-28; highest run, 40. Poggenburg, 239; average, 5 15-28; highest run, 32. Another game will be played to-night.

Williams Bay, Wis., Nov. 16-The meteoric shower was observed here between in hight and daybreak While there was a good display, promising much for next year when the earth encounters the densest part of the swarm, the brillancy was not what was popularly expected. The sky, which was overcast with clouds the forepart of the night, cleared about midnight, just in time for the display. In the short space of time during which they were visible from the Yerkes Observatory about two hundred meteors were seen. Many were of the first magnitude, leaving a brilliant trail of light with a builsh sreen tinge. Others were faint. All moved with great velocity. Most of them appeared about one hundred degrees from the radiant, showing the distance they passed through the atmosphere before becoming ignited. The greatest display was seen in the western sky, but toward morning considerable numbers were seen in the sast. Professor Barnard, assisted by Professors Ellerman and Rinche, took observations of the display from the roof of the Yerkes Observatory, Many photographs were made, but what results were obtained is not known, as the negatives have not yet been developed. In the short space of time during which they were

VIEW OF MASTER WORKMAN HICKS AT KNIGHTS OF LABOR CONVENTION.

Chicago Nov 16 - Most of to-day's session of the Knights of Labor convention was devoted to the reports of committees and that of General Master Workman Hicks. The latter in his annual report took strong grounds in opposition to the anti-expansion policy of President Gompers of the American Federation of Labor. He said:

No part of the territory where our Nation's blood was lost or the flag raised should under any pretext be allowed to go out of our possession. Still we should not, under the guise of humanity, either take for our own or turn back to Spain any portion of the scenes of our various battles, but make them all free and independent. Let us not fear the importation of their cheap labor, but rather let us educate them to our standard. RELIEF WORK IN PORTO RICO TO STOP. Philadelphia, Nov. E.-The National Relief Com-

mittee to-day decided to discontinue relief work in Porto Rico on December 1, the Government now

being in a position to do all the necessary relief work there itself. Should there be a renewal of hostilities, agents of the Commission will be as-signed to every camp. The work of caring for the families of soldiers who are sick, either at home or in a hospital, will be continued indefinitely. KILLED HIMSELF IN THE COURTHOUSE. Seneca Falls, N. Y., Nov. 16.-Patrick Galvin, a well-known resident of this place, to-day went to

the Courthouse in Waterloo, where the Supervisors are in session, and taking a bottle of car-bolle acid from his pocket, swallowed the contents, dying in a few manutes. No cause is known for the
